LANGUAGES

FRANÇAIS	NATIF
ENGLISH	FLUENT
CHINESE	BEGINNER

SKILLS

Technical skills

- Python(basic-intermediate)
- Arduino fundamentals
- Beginner Solidworks
- Basic experience with AI tools for learning

Soft Skills

- Teamwork
- Communication
- Problem-solving

FORMATIONS / EDUCATION

0 LFRD French International School
Secondary Student (Year 10)
Expected graduation 2028

PROFIL

Motivated and curing student aspiring to study mechanical engineering with interest of robotics, AI and technology. Experienced with teamwork. Passionate about learning,problem-solving and building personal projects as well as competing.

PROJECTS

Couple Personal Programming Projects (Python,Pygame)

- Completed a couple of guided learning projects (space-ship game, survival 2d...)
- Currently working on a independant game-based project

Robotics & Arduino Exploration

- Beginner learning Arduino circuits and simple robot systems
- Developed a small understanding of sensors, wiring...

EXPERIENCES

Engineering Intern-CamTech One week internship/2025

- Assisted in developement and assembly of a robotics project
- Observed engineering and technical workflows in a professional environment
- Participated in documentation and reporting progress

Currently a Nuit de Code-School Representative 2026

- Selected to participate in Mai for the Nuit de Code Programming competition
- Collaborated on game development and problem solving
- Applied Python and Pygame knowledge in a competition environment
